Full-Stack MERN Developer with experience in building scalable web applications and a strong interest in Artificial Intelligence and Machine Learning. Seeking an AI/ML internship to apply my development expertise and expand my skills in intelligent systems.

EDUCATION

- **Master of Science in Computer Science (MSCS)**,
Lamar University Dec 2026 (expected)
Beaumont, Texas
Relevant Coursework: Data Structure,
Theory of Computation, Analysis of Algorithm
- **Bachelor of Science in Computer Science & Information Technology (BSc. CSIT)**
Tribhuvan University (TU) 2018 – 2023
Bhaktapur, Nepal.

ACADEMIC PROJECTS

- Designed and developed web-based Job Recommendation System in PHP, uses Cosine Similarity for recommendation.
- Developed HTML/XML validator system based on Pushdown Automata (PDA) using Python, focusing on the core logic of language validation.
- Developed a custom block-based filesystem in Python with features including necessary shell command, file versioning, hard links, copy, recycle bin with restore/clear, and password-protected hidden directories.

ACTIVITIES & ACHIEVEMENTS

- **3-Month Software Training | MIDAS Technologies Pvt. Ltd. (2023)** | Completed specialized training on the MIDAS software suite used by Bhaktapur Cancer Hospital. Gained deeper insight into managing healthcare data, streamlining patient information workflows, and troubleshooting advanced system issues.
- **Election Volunteer, Changunarayan Municipality (2022)** | Assisted in federal election proceedings, guided voters, and maintained transparent election operations.
- **Workshop on "Getting Started with AI" | NxtGen & Quantum Hack (2020)** | Gained foundational knowledge in machine learning and AI tools.
- **Organized Git/GitHub Session (Beginner Guide for Juniors), "Programming in JavaScript," and "Hello Linux" Workshops | Bhaktapur Multiple Campus, (2019)** | Coordinated and led technical workshops for fellow students, covering version control best practices, JavaScript fundamentals, and Linux basics.
- **Ask Buddie Meetup Participant | New Summit College (2019)** | Networked with industry professionals to learn about emerging tech trends.
- **Basic to Advance Computer Course | Success Academy, April 15, 2018 - April 13, 2019**

PROFESSIONAL EXPERIENCE

Computer Operator / IT Assistant Bhaktapur Cancer Hospital (BCH)

Bhaktapur, Nepal.

December 20, 2021 - December 22, 2024

- Build and maintain internal web applications for hospital data management, using React, Node.js, and MySQL.
- Oversee IT infrastructure, troubleshoot hardware/software issues, and ensure seamless network operations.
- Provide technical assistance to cancer patients and departmental staff, balancing strong customer service with in-depth technical knowledge.
- Coordinate with multiple hospital departments to deliver effective hardware and software solutions, improving overall productivity.

MERN Stack Developer

HOBES Technology | Kathmandu, Nepal

January 6, 2020 - December 16, 2021

- Designed and maintained web applications, integrating front-end interfaces (React.js) with back-end services (Node.js/Express).
- Optimized and secured data storage in MongoDB, ensuring efficient application performance and scalability.
- Collaborated with senior developers, QA engineers, and product managers to deliver software on schedule.
- Commended for problem-solving, adaptability, and meeting strict deadlines.

SKILLS

- **Technical Skills:** C/C++ | PHP | JavaScript | Python | HTML | CSS | Tailwindcss | React.js | Gatsby | Node.js | Express | MySQL.
- **Tools and Platforms:** Git | Version Control | VS Code | Linux Command Line.
- **Soft Skills:** Problem-Solving | Time Management | Team Collaboration | Communication.
